

# ADDENDUM TO BIDS #4

**DATE:** Friday, April 24, 2026

**TO:** All Bidders

**PROJECT:** City Parks Security Cameras  
City of Jeannette  
Westmoreland County, PA

**OWNER:** The City of Jeannette  
110 South Second Street  
Jeannette, PA 15644

**NUMBER:** ADDENDUM TO BIDS #4

**NOTICE IS HEREBY GIVEN**, that the City of Jeannette, PA hereby issues this Addendum Number Four for bidding purposes for the above listed project. This Addendum is issued to respond to questions submitted by interested bidders.

**1. QUESTION: What voltage is at the poles that we are to retrieve power from?**

*RESPONSE: Utility powered cameras will be mounted on existing buildings where existing electrical outlets are available. All pole mounted cameras will be powered by solar in accordance with the bid specifications.*

**2. QUESTION: Are pictures available of the head-end of the camera system existing at Altman Park?**

*RESPONSE: The City is working on trying to get pictures if possible.*

**3. QUESTION: Should the existing cameras be replaced if they are not compatible with another company's recording device?**

*RESPONSE: No.*

**4. QUESTION: Is there existing internet available at West Jeannette Park to connect?**

*RESPONSE: If the existing internet is not available, then the internet connection shall be established through the same process as the solar powered cameras. At these locations where utility electric is available, network equipment may be powered via electronic connection versus solar. The requirements for a complete and reliable system still apply.*

**5. QUESTION: Is there internet access at the sites?**

*RESPONSE: There is existing internet established at West Jeannette and Altman Parks. Availability and connectivity is uncertain. Bidders may include needed infrastructure for connectivity assuming internet is not available for the proposed utility powered cameras depicted on the maps in the bid documents.*

**6. QUESTION: If there is no internet access available, how will the cameras connect back to the network?**

*RESPONSE: Connectivity will need to be determined by the bidder. Possible solutions would be a mounted cellular modem, router, and SIM card.*

**7. QUESTION: Can you confirm that you will provide Routers with SIM cards as part of the City's monthly subscription service and that this equipment is not part of the contractor's scope?**

*RESPONSE: Cellular providers may offer routers, modems, or other equipment as part of their service plans. If a Contractor proposes a cellular service plan that includes equipment as part of the subscription, the Contractor shall clearly identify the following in their proposal:*

- 1. The type of equipment provided (e.g., router, modem, antenna) Whether the equipment is owned, leased, or provided as part of the service plan.*
- 2. Any limitations or requirements associated with the equipment and the estimated monthly and annual subscription cost per device/location.*

*The Contractor shall be responsible for installation, configuration, and integration of all communication equipment, regardless of whether the equipment is contractor-provided or carrier-provided. The Contractor shall be responsible for coordinating with the City and the cellular provider to facilitate the installation, activation, and configuration of all required communication services.*

*The City will be responsible for establishing and maintaining the cellular service accounts and for payment of all ongoing subscription costs.*

**8. QUESTION: Are pictures available on the existing equipment inside of the building at Altman Park?**

*RESPONSE: The City will work on providing pictures if possible.*

If any of the proposed bidders have any questions, please contact Mr. Ethan Keedy, City Manager, at (724) 527- 4000 ext. 17 or by email to [ekeedy@cityofjnt.com](mailto:ekeedy@cityofjnt.com).

The undersigned hereby acknowledges receipt of the addenda listed above and has taken the information contained therein into full consideration in the formulation of the Bid. Failure to acknowledge receipt of each addendum may be cause for rejection of the Bid.
